MEMORANDUM FOR: PROJECT DIRECTOR

SUBJECT : Timing Information on Recordings

1. This is in response to your request for my views concerning "timing" of information on recordings. Until I know more details concerning the use that is to be made of the recorded time, I would recommend that the base time be the instant photography or other recordings are initiated. This timing record should continue until no more photography or other recordings are anticipated on a particular mission.

2. Recording time in this manner will permit one item of interest to be related time-wise to any other recorded item throughout the mission.
